

# Second to None

## Mapei

Words are never spoken, in the midst of feeling token  
Taking all what's left to the bone, still the stomach exploded  
Call the local hero over, now we're all floating  
Party till a life is missing, crying till we're choking  
Yesterday's champion, now the man is doping  
Eyes on the prizes, stores are never open  
Welcome to the life of, where nothing's ever boring  
A lost generation still waiting for their calling  
The day that I win I'll be second to none  
Some of us die trying, some of us give up  
I say I'll be damned if you're testing my luck  
The day that I win I'll be second to none  
Running down the main street, got me feeling like a young girl  
Running down the main street, got me feeling like a young girl  
Running down the main street, got me feeling like a young girl  
Running down the main street, got me feeling like a young girl  
If God bless you and either and  
God bless he  
Who paved the way to heaven and put us on the lease?  
Our house look so soulful, that's why we're so beautiful  
Speakers bumping loud, but I can still hear those vocals  
Graduation day, and they rose to toast you  
Which means emancipation day, now what more can you do?  
You can do magic happen or what we call voodoo  
A bitter sweet generation but nothing is boring  
Hard working generation still waits for their calling  
The day that I win I'll be second to none  
Some of us die trying, some of us give up  
I say I'll be damned if you're testing my luck  
The day that I win I'll be second to none  
I produced nothing, I failed something  
Work hard no playing games and pretend you love it  
You becomes so fake to yourself that is disgusting  
For better or for worse or for the fighting and fussing  
A flock of people, we're just waiting around  
While the government keeps finding ways  
To keep us safe and sound  
So we stay on the block pound for pound  
Until the truth comes around yeah, comes around  
A generation that stay awake until dawn  
A generation awaits their final call  
Running down the main street  
Got me feeling like a young girl  
The day that I win I'll be second to none  
Some of us die trying, some of us give up  
I say I'll be damned if you're testing my luck  
The day that I win I'll be second to none  
Running down the main street, got me feeling like a

young girl

Running down the main street, got me feeling like a young girl  
Running down the main street, got me feeling like a young girl  
Running down the main street, got me feeling like a young girl
