

High Enough (feat. WHATUPRG)

Derek Minor

Yeah, yeah, yeah, yeah, yeah, yeah, yeah
I got, I got
I feel like Pro 2008
I got, I got, yeah I got angels all around me
So don't ask the boy what's up
You can ask the one's around you
They gonna tell you that it sucks
High enough
I can hear the Lord calling
I don't feel like picking up
Who thought the higher up
The more you get out of touch
High enough
I been out here tryna climb this ladder am I high enough?
I been turning everything into gold I got the Midas touch
They like you made it boy
How you feed your family yeah
Pat you on the back and give you tons of way to go
I remember when I used to dream about it
Now I'm here I could care less about it
Am I ungrateful?
6 figures on the table, stacking shrimp on the table
I treat it like it ain't a thing though
I been out on the road I been doing these shows
Telling you all how to go up
But I ain't been to church in 4 months
I be the first to admit
I ain't talking to God why
I been way to focus on the climb
I got angels all around me
So don't ask the boy what's up
You can ask the one's around you
They gonna tell you that it sucks
High enough
I can hear the Lord calling
I don't feel like picking up
Who thought the higher up
The more you get out of touch
High enough
Check up, could no rest, stunt on my haters, go hate on that
I bought a new thing, newer than your thing
I can have everything and feel like I don't have anything oh

Maybe high enough ain't high enough
I've been trying to get to God my plan ain't flying up
That's cause I'm confused and hit with everything I got
I'm confusing with what I got with everything I need
I got blessings all around me, I got angels all around me
I got life all around me, now I make it all about me, that's the trap
Spend your whole life chasing nothing
Please don't take the bait unless your soul fly above me I got angels all around me
So don't ask the boy what's up
You can ask the one's around you
They gonna tell you that it sucks
High enough
I can hear the Lord calling
I don't feel like picking up
Who thought the higher up
The more you get out of touch
High enough
