

True Colours (Extended Mix) [feat. Grace Fleary]

Sammy Porter

Over and over
I'm hearing what you said to me
There was another
We are no longer to be
Call fills my mind
Feeling so alone
Lost for words to say
But I'll be fine
I'll carry on
Face another day
Now I can see
Your true, true colours
Your true, true colours
Your true, true colours
Now I can see
Your true, true colours
And that don't work for me
Now that we're over
I realised what I should have seen
And I will discover
That this is better for me
I will find my way
And a will keep my fate
Nothing can bring me down
Nothing left to say
I won't lose my way
I don't need you around
Now I can see
Your true, true colours
Your true, true colours
Your true, true colours
Now I can see
Your true, true colours
And that don't work for me
Now I see your true colours, I know
That it's time for me to go
'Cos there's nothing for me no more
Now I can see
Your true, true colours
Your true, true colours
Your true, true colours
Now I can see
Your true, true colours
And that don't work for me
Now I can see
Your true, true colours
Your true, true colours
Your true, true colours
Now I can see
Your true, true colours

And that don't work for me Now I can see
Your true, true colours
Your true, true colours
Your true, true colours Now I can see
Your true, true colours
And that don't work for me
