

# Stay the Night

## The Internet

There's another new love  
I know you tryin' to do right  
But maybe we should stay cooped up  
Like we don't know what moonlight is  
Lately I've been going crazy  
Begging you to stay  
'Cause I just want you safe  
Anger, all the misbehavior  
Got you feeling anxious all the time  
Maybe you should stay the night  
Maybe you should stay the night  
Maybe you should stay the night  
Why don't you stay the night?  
Baby, just stay the night  
Maybe you should stay the night  
Why don't you stay the night?  
You know it ain't safe outside  
You should just stay tonight  
Why don't you stay the night?  
Maybe you should stay the night  
Baby, just stay tonight  
You've been feeling kinda juiced up  
Seeing things in a new light  
I know you've been through stuff, but  
I wonder if you're too righteous  
'Cause lately people going crazy  
I think you should stay  
'Cause I just want you safe  
Baby, I know that you're angry  
Feeling like your fate on the line  
Maybe you should stay the night  
Maybe you should stay the night  
Maybe you should stay the night  
Why don't you stay the night?  
Baby, just stay the night  
Maybe you should stay the night  
Why don't you stay the night?  
You know it ain't safe outside  
You should just stay tonight  
Why don't you stay the night?  
Maybe you should stay the night  
Baby, just stay tonight I just (I just)  
Think you should (you should)

Stay the night (stay the night)  
I just (I just)  
Think you should (you should)  
Stay the night (stay the night)  
You should kick it, babe Maybe you should stay the night  
Maybe you should stay the night  
Maybe you should stay the night  
Why don't you stay the night?  
Baby, just stay the night  
Maybe you should stay the night  
Why don't you stay the night?  
You know it ain't safe outside  
You should just stay tonight  
Why don't you stay the night  
Maybe you should stay the night  
Baby, just stay tonight
