

Paris (feat. London Jae)

Domani

Last night I dreamed I road a train through Paris
And I woke up on a flight to LA, all and all I say I had a good day
Bad bad ____ Last night I dreamed I road a train through Paris
And I woke up on the other side of the moon
Same flowers are bloom, so I was cool I had a good old day I'm having troubles telling dreams
from reality
It seems like I gotta be up because of my salary
Fame seems to flatter me the impacts what I'd rather see
I'm keeping it real I'm just keeping it real
Yeah they putting this shit on so how you feel about it
I'm just trying to cop the maker with their heels by it
That's why every time you call me I'm busy baby I'm sorry I'm just working so my closet hangs
your heels by it Last night I had a strange dream
Didn't exactly know the meaning, to I realised I wasn't dreaming
This reality, this real life
Thank god I'm finally doing something that feels right
Feel right Last night I dreamed I road a train through Paris
And I woke up on a flight to LA, all and all I say I had a good day
Bad bad ____
Last night I dreamed I rode a train through Paris
And I woke up on the other side of the moon
Same flowers are bloom, so I was cool I had a good old day
A good old day (x2)
I pray to god I get to see more days
Financially stable is how we gone stay
Coz I just doubled my worth in just 3 whole days
To this day I ask my self-man what you doing
Why were you placed in make sure you don't leave this road without knowing
Save your money, not for rainy days but when it's pouring
Quote relies from the ones we thought always showing us a way out
Turns out they had that money laid out
So we can shoot and kill each other when them brand new Js out
Probably someone laughing watching us going death from fashion
Took away the chains and separated us with the classes
I had a dream I rode a train through Paris woke up got pulled over by a cop
No explanation just gun shots
I had a dream I rode a train through Paris
I cannot longer see flowers bloom
Just a _____ boys bullet wounds
This is a usual day
This is a usual day
This is a usual day

This is a usual day
