

# Guilty

## Paloma Faith

I've been a criminal I made a mistake  
Believed in the fictional then let everything slip away  
I cant accept my fate  
Thought the alternative looked so crystal clear  
Drowning in muddy waters and I'm living in my worst fears  
Begging you back through tears You had this picture of me  
And now I have shattered your dreams  
I know the drill and I know the truth  
And it kills me Girl I'm Guilty don't come near me  
The one thing I'm good at is messing up somebody else  
Baby I'm Guilty of turning sweet love into poison  
And I've got the scars if you're talking about hurting yourself  
Baby I'm Guilty as hell  
I sit here all alone  
My defences down  
Wishing I could be home  
But I'm locked out and it's my fault  
Grazes with added salt  
Thought I would be ok without you and I  
Now that I realise this was all just an awful lie  
Take me back I might die You had this picture of me  
And now I have shattered your dreams  
I know the drill and I know the truth  
And it kills me Girl I'm Guilty don't come near me  
The one thing I'm good at is messing up somebody else  
Baby I'm Guilty of turning sweet love into poison  
And I've got the scars if you're talking about hurting yourself  
Baby I'm Guilty as hell  
I should've known that I could not go on here without you  
Instead of walking away alone now I feel terrified  
I know I was wrong now I'm hurting myself I wish I knew  
Please take me back I don't wanna believe it's goodbye Oh yeah I'm Guilty don't come near me  
The one thing I'm good at is messing up somebody else  
Baby I'm Guilty as hell Girl I'm Guilty don't come near me  
The one thing I'm good at is messing up  
somebody else (please forgive me darling)  
Baby I'm Guilty of turning sweet love  
into poison (I turn sweet love into poison)  
And I've got the scars if you're talking about hurting yourself  
Baby I'm Guilty as hell
