

Whenever You're Near Me

Ace of Base

Whenever you're near me, I give you everything I have.
I want to believe in the things I put around my mind.
You know how to please me, like nobody can.
I want to believe in, be my lover be my friend. When every raise is run and the day comes to an
end
I feel the need to hold you let them let me in
Come softly too me show me why Whenever you're near me, I give you everything I have.
I want to believe in the things I put around my mind.
You know how to please me, like nobody can.
I want to believe in, be my lover be my friend. I cannot wait to feel the beating of your heart
But days are long and are just keeping us apart
Come softly too me show me why
Whenever you're near me, I give you everything I have.
I want to believe in the things I put around my mind.
You know how to please me, like nobody can.
I want to believe in, be my lover be my friend. Whenever you're near me Love is a reason you
can feel this way inside
Turning the world around, making us wild.
Love is the music beating in our hearts tonight,
Lighting the way to take us deeper inside. Whenever you're, Whenever you're near me, I give
you everything I have.
I want to believe in the things I put around my mind.
You know how to please me, like nobody can.
I want to believe in, be my lover be my friend. Whenever you're near me, I give you everything
I have.
I want to believe in the things I put around my mind.
You know how to please me, like nobody can.
I want to believe in, be my lover be my friend.
Whenever you're near me,
I want to believe in the things
You know how to please me,.
I want to believe in, be my lover be my friend. Whenever you're near me.
