

# Lycanthropy

## Six Feet Under

The blood of the wolf infects my body  
In the night hear the howling  
Screaming, flesh chewed to the bone  
Bleeding, eternal horrorDying in the darkness  
Now one of us  
Bitten by the wolf  
Now one of usWhen the moon is full  
And the night comes down  
Fear all unnatural sounds  
Human beast, animal  
Curse of the lycanthropy  
Dying in the darkness  
Now one of us  
Bitten by the wolf  
Now one of usCarnivorous  
Lust for human flesh  
Legacy of blood  
Another victimCarnivorous  
Lust for human flesh  
Legacy of blood  
Infected deadThe blood of the wolf infects my body  
In the night hear the howling  
Screaming, flesh chewed to the bone  
Bleeding, eternal horror  
When the moon is full  
And the night comes down  
Fear all unnatural sounds  
Human beast, animal  
Curse of the lycanthropy
