Lettin niggaz know what time it is when it comes to me

You can't find us here anywhere and I tear

you a new asshole, as beautiful as gold

Look at your reflection in my shine, find

pissy hallways are always on my mind

But not tonight, I'm sittin on chri-dome

Makin more waves than my cellular phi-done

Mental energy from within keeps me higher

than anything rolled and set on fire let me try a

little somethin new, grand cuz what I am

is mathematic, I must to blow your static if I can

I.N.C., Crew I thought you knew

Hit the strip spot and I think that I'm gonna

I see my nigga Jose, "Mida, que pasa?"

We goin to the spot, need a ride? I gotcha

So come on in, come on in, come on in

It's like fire when you see my chrome spin

I paid the valet, I stepped to the stage

I think I wanna play with the girl in the cage

Lap dance, lap dance, lap dance

Baby look I got trouble in my pants

I just checked my wallet, no more dough

I just paid your rent and now I gotta go

She did me till I's done, smooth like Bally

I walked outside, they said that they ain't got no valet

Somebody caught me slippin, dipped with my ride

But we gonna catch they ass on the B-SideChorusI just got paid...
