

# New Day

## Iron Butterfly

Come and have a new day-yeahHey, we all know  
That the town is around us todayTalking bout the pain that comes after  
And what a high price it seems we got to pay for liveTime to share a little love  
Come and have a new day yeahHey, its time that we're feeling  
What has got both talking bout today  
Take a look at the part that we're playing  
In a hard special way  
Time to share all our love  
Come and have a new dayMake it a new day-new day  
Made in a new way  
Make it a new day-new day  
Made in a new wayGot to have Time to think it over  
Need some more time to think it over  
Over and over and over and over and over and over and overTime to share all our loveCome  
and have a new dayAint no room for non-believers  
You can leave us, if you likeCome back when you find your lovin'  
We'll let you in  
Make you feel alrightGonna make you feel alright  
Make it a new day-new day  
Made in a new way  
Make it a new day-new day  
Made in a new way  
Make it a new day-new day  
Made in a new way  
Make it a new day-new day  
Made in a new way  
Make it a new day  
Made in a new way  
Make it a new day  
Made in a new way
