

# GIRL

## Maren Morris

Man, this shit's unflattering, all up in my head again  
I don't feel myself right now, maybe I should just lay down  
If vanity's my vitamin, well, I don't feel the difference  
I don't like myself right now, gotta find a way out  
What you feel is natural  
But I don't wanna feel this anymore  
Pick yourself up off the kitchen floor  
What you waiting for? Girl, won't you stop your crying?  
I know that you're trying  
Everything's gonna be okay  
Baby girl, don't you hang your head low  
Don't you lose your halo  
Everyone's gonna be okay  
Baby girl  
Draw your comparisons, trying to find who's lesser than  
I don't wanna wear your crown, there's enough to go around  
What you feel is natural (Natural)  
You don't gotta put up with this anymore (Anymore)  
Pick yourself up off the kitchen floor (Oh)  
Tell me what you waiting for? Girl, won't you stop your crying?  
I know that you're trying  
Everything's gonna be okay  
Baby girl, don't you hang your head low  
Don't you lose your halo  
Everyone's gonna be okay  
Baby girl Girl, don't hang your head low  
Don't lose your halo, don't lose your halo  
Girl, don't hang your head low  
Don't lose your halo, oh  
Girl, don't you stop your crying  
I know that you're trying  
Everything's gonna be okay  
Baby girl, don't you hang your head low  
Don't you lose your halo  
Everyone's gonna be okay  
Baby girl, won't you stop your crying?  
(Won't you stop your crying?)  
I know that you're trying  
Everything's gonna be okay  
(Everything's gonna be okay)  
Baby girl, don't you hang your head low  
Don't you lose your halo  
Everyone's gonna be okay  
(Everyone's gonna be okay)

Baby girl Everyone's gonna okay, baby  
Mm mm mm, mm mm mm  
Hoo hoo hoo, hoo
