

Wonderwoman (feat. Jake Miller)

Sweet California

Where you use your super powers
Wonder Woman
Wonder Woman You know you got those super powers
Wonder Woman
Wonder Woman If he's actin' up you need to tidy up your tactics
You can lance everything but you can ever see the practice
If you shun his ass, shun him and you hold it
Then don't ever forget all the evil that it's molded If you wanna play rough, tear his blouse
If you don't know how to play take his stars away
If you wanna be the fool, then it's cool, it's cool when you use your super powers
Wonder Woman
Wonder Woman
You know you got those super powers,
Wonder Woman
Wonder Woman Pop, pop, pop that power
Pop, pop, pop that power
Pop, pop, pop that power
If he's actin' up you gotta pop that power You can do anything you want, just learn to control
your power
If you've got what they need, you've got the control So if you wanna play rough, call his bluff
If he don't know how to play take his toys away
If you wanna be the fool, then it's cool, it's cool Go ahead and use your superpowers
Wonder Woman
Wonder Woman You know you got them superpowers
Wonder Woman
Wonder Woman
Why you wanna lock me up and tighten up your G-String?
No need to overreact, baby, just maintain
You know I was only playin'
Please don't let this be an issue
Girl, I swear that I'm official, I was just sayn'
Pop a tag, pop a bottle, baby pop a collar
Pop anything in the world, I swear you got the power
You know I can't live without that lovin'
Girl, you know that you're my Wonder Woman Go ahead and use your superpowers
Wonder Woman
Wonder Woman
You know you got them superpowers
Wonder Woman
Wonder Woman Pop, pop, pop that power
Pop, pop, pop that power
Pop, pop, pop that power

If he's actin' up you gotta pop that powerPop, pop, pop that power
Pop, pop, pop that power
Pop, pop, pop that power
If he's actin' up you gotta pop that power
