

# Stand On the Horizon

## Franz Ferdinand

How can I tell you I was wrong?  
How can I tell you I was wrong?  
When I am the proudest man ever born  
I stand on the horizon  
I want to step across it with you  
But when the sun's this low  
Everything's cold on the line of the horizon  
Come to me  
Oh won't you come to me  
Come to me  
Oh won't you come to me  
Come to me  
Oh won't you come to me  
Won't you come to me, yeah  
How can I tell you I was wrong?  
How can I tell you I was wrong?  
When I am the cruellest man you have known  
That you ever known  
That you ever known  
That you ever known  
I stand on the horizon  
I want to step across it with you  
But when the sun is this low  
Everything's cold on the line of the horizon  
In South Shields Metro station  
I heard Marsden Rock was breaking  
The North Sea shaking  
All that we know  
To make us see the point of living is to live  
So won't you come to me  
Won't you come to me, yeah  
Come to me  
Won't you come to me, yeah  
The North Sea sings  
"Won't you come to me baby? Won't you come to me?"  
The North Sea sings  
"Won't you come to me baby? Won't you come to me?"  
The North Sea sings  
"Won't you come to me baby?"  
The North Sea singing  
"Won't you come to me?"  
The North Sea sings

"Won't you come to me baby?"

The North Sea singing

"Won't you come to me?"

The North Sea sings

"Won't you come to me baby?"

The North Sea singing

"Won't you come to me?"

The North Sea sings

"Won't you come to me baby?"

The North Sea sings

"Come to me

Won't you come to me with you?

Won't you come to me with you?

Won't you come to me with you?

Won't you come to me?"

The North Sea sings

"Won't you come to me, baby?"

The North Sea singing

"Won't you come to me?"

The North Sea sings

"Won't you come to me, baby?"

The North Sea sings

"Won't you come to me?"
