

# Notions

## The Ready Set

I've got the notion for emotion  
And baby i've got my sights on you I've got the notion for emotion  
So baby don't let this son-Hello, what's your name girl?  
Do you feel alright?  
Said my name then you stopped me  
Cause it don't matter tonight.  
We're acting kinda crazy  
Feelin' amazing  
Hopped on the fast path  
Down your one way eyes  
Hey  
Could you be my queen tonight?  
Cause i got the feelin'  
That you're feelin' me  
Under these flashin lights  
Hey  
Could i be your king tonight?  
I could dress you up in diamond jewelry  
Cause straight up you're royalty  
Get up, get up  
We don't gotta take it slow  
Tell me lies, tell me lies  
Like we're never going home  
You say the music makes you wanna  
Fall in love  
So let this song come true  
This one goes out to me and you I've got the notion for emotion and baby  
I set my sights on you  
Oooooooooooh  
I've got the notion for emotion  
Yeah baby, so let this song come true  
We both got intentions  
But i bet we're gonna lie about them  
So maybe i should mention  
That my word holds up and when  
You say the musics over  
(simple and sober)  
Doin' 8-5 in a love struck zone  
Hey livin' in a dream tonight  
Now i got the feelin' we're invincible  
So maybe we can fly  
Hey

Could you be my queen tonight?  
I could dress you up, down, anything  
(what) you want is fine with me  
Get up, get up  
We don't gotta take it slow  
Tell me lies, tell me lies  
Like we're never going home  
You say the music makes you wanna  
Fall in love  
So let this song come true  
This one goes out to me and you  
I've got the notion for emotion and baby  
I set my sights on you  
Ooooooooooh  
I've got the notion for emotion  
Yeah baby, so let this song come true  
We don't have the luxury to live slow  
So can i sing you anything that you know?  
We're so free (got love in this moment)  
But it's only (love - love in this moment)  
Ooooooooooh  
You say the music makes you wanna fall in love  
So let this song come true  
(let it come true)  
Get up, get up  
We don't gotta take it slow  
Tell me lies, tell me lies  
Like we're never going home  
You say the music makes you wanna  
Fall in love  
So let this song come true  
This one goes out to me and you  
I've got the notion for emotion and baby  
I set my sights on you  
Ooooooooooh  
I've got the notion for emotion  
Yeah baby, so let this song come true  
I've got the notion for emotion and baby  
I set my sights on you  
Ooooooooooh  
I've got the notion for emotion  
But baby, don't let this song come true
