

# Blue

## Jeff Lynne's ELO

Blue, is the world  
silent and blue, is the world  
Sailing upon the deepest sea  
Spending the void eternally  
And Blue, blue is the world Blue, blue is the night  
silent and blue, is the night  
And when the sun begins to glow, there'll be another blue tomorrow  
And Blue, blue is the world Maybe I'm just dreaming, a million miles from the shore  
Does the world stop turning, if you're not watching anymore  
Sailing upon the deepest sea  
Spending the void eternally  
And Blue, blue is the world  
And Blue, blue is the world  
And Blue, blue is the world  
(blue is the world, blue is the world, blue is the world)
