

Feel Your Love (Radio Edit)

[Kim Sozzi](#)

All that time alone made me go insane
Wasn't hard to see I had lost control
Then you came away so i dont know how
And you walked with me with your smile
I can read your ways when you look at
Me how may I turn to you
Wanna feel your love tonight
Wanna leave the past behind
Holdin on to pain made it hard to breathe
Couldnt get away from my memories
Then you wiped my tears with your soothing touch and you flew my past away
Ive think i cant compare when youre close to me how im trusting you
Wanna feel your love tonight
Wanna leave the past behind
Wanna feel your love tonight
And i feel your love tonight
So hear me baby
All that time alone made me go insane
Wasnt hard to see I had lost control
Then you came away so I dont know how
And you walked with me with your smile
I can read your ways when you look at
Me how may I turn to u
And I feel your love tonight
Wanna feel your love tonight
Wanna leave the past behind
