

# Runaway (feat. Nadia Ali)

Iio & Nadia Ali

Can we go away and never turn around again?  
On an escapade and always keep the vision  
Can we open out and spread ourselves around the  
sand?

Captivate the sun, keep the light till the world ends  
Runaway, runaway  
Runaway, runaway  
Take away the wall and break away my defense  
Candle by our side and never let the rain begin  
Runaway, runaway  
Runaway, runaway  
We're a part of a plan and it's already written  
There is no other way, it's inside our every sense  
Earth is our island  
(Earth is our island)  
Earth is our island  
(Earth is our island)  
Runaway, runaway  
Runaway, runaway  
Karma, am I yours is that your intuition  
If that is your word, I'm the definition  
Earth is our island  
(Earth is our island)  
Earth is our island  
(Earth is our island)  
Runaway, runaway  
Runaway, runaway  
In our destinies, this is what was missing  
Echo in my mind, even through my distance  
Runaway, runaway  
Runaway, runaway  
Runaway, runaway  
Runaway, runaway  
Runaway, runaway  
Runaway, runaway  
We're a part of a plan and it's already written  
Candle by our side and never let the rain begin
