## The Mowgli's

I've been in love with love  
And the idea of something binding us together  
You know that love is strong enough  
I've seen time tell tales about that systematic drug,  
Yeah that heart that beats as one  
It's collectively unconsciously composed I lost my head in San Francisco  
Waiting for the fog to roll out  
But I found it in a rain cloud  
It was smiling down  
Do you feel the love? I feel the love  
C'mon c'mon, lets start it up!  
Let it pour out of your soul  
I've been in love with love  
And the idea of something binding us together  
You know that love is strong enough  
I've seen time tell tales about that systematic drug,  
Yeah that heart that beats as one  
It's collectively unconsciously composed  
Do you feel the love? I feel the love  
C'mon c'mon, lets start it up!  
Let it pour out of your soul Do you feel the love? I feel the love  
C'mon c'mon, lets start it up!  
Let it pour out of your soul
