

Keystone

Empire of the Sun

We can remember forever
We can remember forever now
We can remember forever
We can remember forever now It's hard to find my way home
When my heart is lost???
Oh save me, every voice inside me screams
Like it's an emergency I wanna live in your arms
And there I'll be safe from harm
I don't wanna live a life alone
If I'm apart from the ones I love I'm just too??? to find my way
With a heavy heart I pray
Lead me to your door
I fool myself into the fray
Now I see??? come back
Love is on the way We can remember forever
We can remember forever now
We can remember forever
We can remember forever now I wanna live in your arms
And there I'll be safe from harm
I don't wanna live a life alone
If I'm apart from the ones I love Forever and ever
That's right, forever and ever, I know
Forever and ever, I know Forever and ever
That's right, forever and ever, I know
Forever and ever, I know
We can remember forever
We can remember forever now
We can remember forever
We can remember forever now We can remember forever
We can remember forever now
We can remember forever
We can remember forever now
