

# Prime

Allie X

Optical illusion, sexual confusion  
In the best way  
Liberal perception, premature connection  
Always hearsay, always hearsay  
We are in the prime of our existence  
(But I think you know the truth it's you)  
We are running blind with no resistance  
(Oh, oh)

Why not give it a try  
Be a beautiful monstrosity  
When you're just getting by  
And happily terminal  
Yeah, breathe it until we're high  
Have some fun, hope you see

Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine

Fresh intoxication, retro retaliation  
Do you feel me? Do you feel me?  
Pointing my pollution, electro-execution  
Can you kill me? Can you kill me eh, eh?  
We are in the prime of our existence  
(But I think you know the truth it's you)  
We are running blind with no resistance  
(Oh, oh)

Why not give it a try?  
Be a beautiful monstrosity  
When you're just getting by  
And happily terminal  
Yeah, breathe it until we're high

Have some fun, hope you see  
Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine  
In the prime  
You are my medicine  
In the prime  
You are my history  
Only got a feeling that it won't  
Got to give it up before my turn is up  
Why not give it a try  
Be a beautiful monstrosity  
When you're just getting by  
And happily terminal  
Yeah, breathe it until we're high  
Have some fun, hope you see  
Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine  
Forget what I need  
Give me what I want  
And it should be fine  
You are my medicine  
You are my history  
You are my medicine  
You are my history  
Forget what I need  
Give me what I want

And it should be fine
