

Beautiful Mistake

Keri Hilson

(Please leave your message for "me" Record your message after the tone
Yo what's up K? umm Its your boy Rob You know I aint heard from you in a minute I'm trying
to see whats good with you, hit me back)I follow my heart
But every time I do it gets me lost and left in the dark
But I think its clear this time, I guess
Were just not compatible
You pick me up you let me down
You give me nothing to fall on (yeah)Damn I wish that cupid's arrow never hit
Never went thru me, thru me
I wish me never crossed the line
I wish I never gave you this booty
It aint bout no other, better friends than lovers
Lets just call this what it is babe what it is babe
Never thought I would say
We were a beautiful mistake (and it is what it is)
Cant say it no other way we were a beautiful mistake (and it is what it is)
Damn I wish I could stay but we were a beautiful mistake
Boy you know Im gonna miss you by my side but it is what it isAhhhh baby
Thats what it is what it is
Ahhhh babyYou followed your heart (your heart)
It lead you to me but in reality I
Dont fit the partWe gave it a rue but it flew outta control now
Dont get me wrong, what we had was good I
Really thought we stood a chance
But that love quickly passed
Damn I wish that cupid's arrow never hit
Never went thru me, thru me
I wish me never crossed the line
I wish I never gave you this booty
It aint bout no other, better friends then lovers
Lets just call this what it is babe what it is babeNever thought I would say
We were a beautiful mistake (and it is what it is)
Cant say it no other way we were a beautiful mistake (and it is what it is)
Damn I wish I could stay but we were a beautiful mistake
Boy you know Im gonna miss you by my side but it is what it is
Time to hang it, If you breaking up, you can hang it up
Time to hang it, If you breaking up, you can hang it up
Aint no use in fighting cuz its understood
We both know we tried it but it didn't turn out good
Aint no use in fighting cuz its understood
We both know we tried it but it didn't turn out good
Don't you see that were just a beau-tiful mistake thats what we are

(repeat until fade)
