

# Sneaky Feelings

## Elvis Costello

Now everybody's breakin' up somebody else's home  
Before somebody else starts breaking up their own  
I get you in my dreams  
You should hear the things you say  
It's not that it's so much fun  
But it's safer that way  
Sneaky feelings, sneaky feelings  
You can't let those kind of feelings show  
I'd like to get right through the way I feel for you  
But I've still got a long way to go  
Why don't we call it a day  
And we can both confess  
You can force me to use a little tenderness  
White lies, alibis, anything but say that it's true  
Now we could sit like lovers  
Staring in each other's eyes  
But the magic of the moment  
Might become too much for you  
Sneaky feelings, sneaky feelings  
You can't let those kind of feelings show  
I'd like to get right through the way I feel for you  
But I've still got a long way to go  
Oh I've still got a long way to go  
Oh I've still got a long way to go  
Oh I've still got a long way to go  
Oh I've still got a long way to go  
Oh I've still got a long way to go  
Oh I've still got a long way to go  
Oh I've still got a long way to go  
Oh I've still got a long way to go  
Oh I've still got a long way to go  
Oh I've still got a long way to go  
I've still got a long way to go  
Oh I've still got a long way to go  
Oh I've still got a long long long way to go  
I've still got a long way to go
