

All In (New York Giants' Anthem)

Travie McCoy

All In (New York Giants' Anthem) - Travie McCoy

We all love this city, we all love this city

We all love this city, we all love this city

I think the name alone says it all New York

United we stand, divided we fall

Either you lead, you follow, forget about the...

Basically we got it broken down to a silence

Everybody from Brooklyn, put your hands in the air

And all my ... blue screen, yeah

We know crazy in here

And money making the... is over here by

. three colors got me shook. that truck

Four rings, the thumbs getting anxious

Four words...

Super hot definition busting up the TV

So go hard, I go home

We put an end till your... is on

The Big Apple going all in

New York City still tall and never falling

One nation, red, white and blue

We're going all in, five, four, three, two!

We're all in, we're all in

We're all in, we're all in

We're all in, we're all in

We all love this city

We all love this city

We all love this city

We all love this city

And you can see the skyline from the side line

No point to try to read between the fine line

.running your face, and if it ain't enough

We can put you on a field and gave you a taste

Determination, perseverance

If you don't speak that language then we don't try to hear it

Oh, that adrenaline ... in

It's a tight circle, and you ain't getting in

The Big Apple going all in

New York City still tall and never falling

One nation, red, white and blue

We're going all in, five, four, three, two!

We're all in, we're all in

We're all in, we're all in

We're all in, we're all in
We all love this city
Money making now
We all love this city
Put me down
We all love this city
Brooklyn stay hard
We all love this city
I'm so New York city, it's so...
...in Times Square
If you're from the Big Apple, I know you're with me
Put your hands off, you're saying...
The Big Apple going all in
New York City still tall and never falling
One nation, red, white and blue
We're going all in, five, four, three, two!
We're all in, we're all in
We're all in, we're all in
We're all in, we're all in
We all love this city
Money making now
We all love this city
Put me down
We all love this city
We all love this city
