

Rockstars

Kane Brown

We take a drive just to sing along
Every word to them rollin' stones
Stacey's mom had it going on
Lived three doors down I can see her now
Her daughter had a heart that was wild and free
If you Blink 182 then you'd miss me
and her, every verse had a story Yeah them parkin' lotter nights lit up our days of glory
Back when the engine starts were the only sound and
you'd strum the chords and I'd put the pedal down
Two man dashboard pound rollin' through this town
And that rearview shakin' to the kick drum beatin'
And the west coast deep in the bucketseats
All I ever wanted was right there in that car
Back when we were rockstars
(alot of background singing)
Back when we were rockstars Nothin' like freedom two windows down
You singin' along still here and now
Way too loud and sometimes off key
But you sounded like an angel to me You'd make fun of how I threw my hair and threw my
fingers up in the air
Thought I was Kurt Cobain or Jimmy Hayes,
Side seat centre stage, Back when the engine starts were the only sound and
you'd strum the chords and I'd put the pedal down
Two man dashboard pound rollin' through this town
And that rearview shakin' to the kick drum beatin'
And the west coast deep in the bucketseats
All I ever wanted was right there in that car
Back when we were rockstars
Back when we were rockstars Never ended up on MTV
Or heard our voices on a CD
But in your eyes and in my heart
We were each other's rockstars Back when the engine starts were the only sound and
you'd strum the chords and I'd put the pedal down
Two man dashboard pound rollin' through this town
And that rearview shakin' to the kick drum beatin'
And the west coast deep in the bucketseats All I ever wanted was right there in that car
Back when we were rockstars
Back when we were rockstars
Back when we were rockstars
You and me were rockstars Yeah we were runnin' all night chasin' down a dream
Howlin' at the moon baby you and me sorry lots of mistakes, please fix
