

Same Emotions

Strand of Oaks

Step into the light here I wanna see you under better light here
I wanna know this isn't what i feared I wasn't feeling all alone again...
Oh I waited you are here, and I...
Oh I waited you are here, and I...
My love, my life I was living in the same emotion
And you called my name, I was living in the same, living in the same emotion
Leave it underwater I know you're thinking we shouldn't go there
Let's just believe in what we have here
I wasn't feeling all alone again...
Oh I waited and you are here, and I...
Oh I waited and you are here, and I...
My love, my life I was living in the same emotion
And you called my name, I was living in the same emotion
Living in the same emotion
