

Alone (Kastle Remix)

JMSN & Kastle

Staring out the window
Waiting for life to stop
Cus everything I been through
Never seems to let up
Someone ask me why I feel like I feel
Take pill after pill
I wish I could chill politic
And play the game
I dont know the fake from the real
The weight of the steel
From the things that I kill
When I sign my life away
Ohh, You know I want this
I know you need it too
I see alone I am
Lets be alone I am
Ohh, You know I want this
I know you need it too
I see alone I am
Lets be alone I am
I see alone I am
Lets be alone I am I'mma keep it simple
Forget that I
I just gotta have ya'
And Ill never stop
Ohh, You know I want this
I know you need it too
I see alone I am
Lets be alone I am
Ohh, You know I want this
I know you need it too
I see alone I am
Lets be alone I am
I see alone I am
Lets be alone I am I'mma give you what I want
The only thing I need
You call me in my dreams
Even when Im not asleep
Even when Im not asleep
Your the only thing I got
Its clear for me to see
No matter the degree

This is where I wanna be
This is where I wanna be
This is where I wanna be Ohh, You know I want this
I know you need it too
I see alone I am
Lets be alone I am
Ohh, You know I want this
I know you need it too
I see alone I am
Lets be alone I am
I see alone I am
Lets be alone I am
