

# Strange Love

## Abandon All Ships

Stay awake, and look into our future  
Just breathe my name and let the music come alive.  
We get into scraps wherever we go.  
Hold onto to your girls before we grab them bro.  
We party it up 'til last call.  
We don't give a fuck, we came to brawl.  
All I wanna do is party.  
Feel up your body.  
Fist pump like Pauly D.  
We're growing up gotti.  
She's looking so hot.  
Gotta get her some shots.  
Bring her back to my spot.  
Show her what I got.  
All I wanna do is party.  
Feel up your body.  
Fist pump like Pauly D.  
We're growing up gotti.  
Dance like you fuck.  
Strange love.
