

How Could This Be Wrong (feat. Tula)

The Glitch Mob

Hit you like a wave
Washing over me
Cause I can hear you call my name
And I won't tell no one
You say you're gone now
I hear you call my name
I hear you calling out
I can't have you break
Like a child
When you feel so right
So right
How can this be wrong
When you break like a child
When you feel so right
So right
How can this be wrong
How can this be wrong
How can this be wrong
How can this be wrong
How can this be wrongHit you like a wave
Washing over me
Cause I can hear you call my name
And I won't tell no one
You say you're gone now
I hear you call my name
I hear you calling out
I can't have you break
Like a child
When you feel so right
So right
How can this be wrong
When you break like a child
When you feel so right
So right
How can this be wrong
How can this be wrong
How can this be wrong
How can this be wrong
How can this be wrong
