

High School Dropout

Neon Dreams

[Verse 1]

I was singing, I was singing those same damn blues

Let's be honest

People change, people change, I been changing too

Yeah yeah yeah yeah

Levelled up with my pumped up kicks, rock with you on my MJ shit

On a new wave over your head, caught a vibe and I'm riding it[Pre-Chorus]

Oh, get your head up, get your head in the clouds

Keep on dreaming, keep on dreaming out loud

Oh, get your head up, get your head in the clouds, clouds

But don't take it from me

[Chorus]

I'm just a high school dropout

It's funny how it turned around

Just a burnout

Tell me who's laughing now

Out here living my best life

Something in the air tonight

High school dropout

It's funny how it turns around[Verse 2]

I was tripping, I was tripping tryna fill those shoes

Let's be honest

One size don't fit all, that's the truth

Yeah yeah yeah yeah

Levelled up with my pumped up kicks, rocking out on my André 3K shit

Fly high, I can kiss the sky, close my eyes and I know that we gon' be alright

[Pre-Chorus]

Oh, get your head up, get your head in the clouds

Keep on dreaming, keep on dreaming out loud

Oh, get your head up, get your head in the clouds, clouds

But don't take it from me[Chorus]

I'm just a high school dropout

It's funny how it turned around

Just a burnout

Tell me who's laughing now

Out here living my best life

Something in the air tonight

High school dropout

It's funny how it turns around
