

# Come Away

## Crash Kings

32 degrees on a winter's day  
Think about it for a second  
And feel the cool, cool breeze on your neck and then  
Think about it for a second  
If there ever was a day that you should get away  
I feel it in my bones I think today's the day  
And you can't back down  
Take the chance to leave behind  
A single dance in the snow  
Between the trees  
You will know the sound of nothing Come away on this winter's day  
We are going to ride again whoaaaaa  
And buckle in get you suited up  
Its time to fly  
82 degrees on a summer's day  
Take a minute and remember  
with the cool, cool breeze in your head again  
Take a minute and remember  
If there ever was a day that you should get away  
I feel it in my bones I think today's the day  
And you can't back down  
Take the chance  
To leave behind  
A single dance  
You will know the sound of nothing Come away on this winter's day  
We're gonna ride again whoaaaaa  
And buckle in get you suited up  
Its time to fly  
Come away on this winter's day  
We're gonna ride again whoaaaaa  
And buckle in get you suited up  
Its time to fly 32 degrees on a winter's day  
Think about it for a second Come away on this winter's day  
We're gonna ride again whoaaaaa  
And buckle in get you suited up  
Its time to fly Come away on this winter's day  
We're gonna ride again whoaaaaa  
And buckle in get you suited up  
Its time to fly
