## **Sunshine**

## **Alexander O'Neal**

Cloudy was the day when Sunshine came into my life And made it brighter

She touched me with her warmness as the light shines from her smile She makes me happyI could never keep myself away? cause when I? m next to her I feel the warm rays reaching out from her loveShe touch me with a smile that glows

I can? t go a day without my Sunshine

She warms me with her heart of gold

I can? t go a day without my SunshineWhen life? s troubles come around and they start to get me down

I call my Sunshine

Because there? s no other remedy strong enough for me

Just her

I can never keep myself away? cause when I? m next to her I feel those warm rays reaching out from her loveShe touch me with a smile that glows

I can? t go a day without my Sunshine

She warms me with her heart of gold

I can? t go a day without my SunshineTouch me with a smile that glows

I can? t go a day without my Sunshine

My Sunshine, my Sunshine, my Sunshine

She warms me with her heart of gold

I can? t go a day without my Sunshine

My Sunshine, my SunshineI can never keep myself away? cause when I? m next to her

I feel those warm rays reaching out from her love

Sunshine, Sunshine, Sunshine

She touch me with a smile that glows

She warms me with her heart of gold

Sunshine, Sunshine, SunshineAll I wanna say, girl

You know, sometimes sunshine turns to rain
