

Catch You On the Rebound

Brenton Wood

You been gone now almost a year and ask me to forget and forgive
later babycatch you on the rebound
rebound You didn't even write me or drop me a postcard
now you want to come back and make a new start
later babycatch you on the rebound
rebound
ooh you were the first love that i ever had
but you been gone so long now i dont feel so bad
later babycatch you on the rebound
rebound
I was hoping and praying
that I see the day when I could tell you to your face
later babycatch you on the rebound
rebound
