

# Cherry Blossom

[ALA.NI](#)

cast some cherry blossoms by the river  
blowing through the flowing of my heart  
if you see me somewhere down the river  
come and stand beside me its alright  
    come to me  
    stay with me  
    say you'll be  
    a friend to me  
    love everlasting love  
    lives forever and a day so  
cast some cherry blossoms by the river  
blowing through the flowing of my heart  
if you see me somewhere down the river  
come and stand beside me its alright  
    fall for me  
    long for me  
    always be a friend to me  
    love ever enchanted love  
    lives forever and a day so  
    cast some cherry blossoms  
blowing through the flowing of my heart  
I hope to see you somewhere down that river  
    come and stand beside me its alright  
    come and stand beside me its alright
