

Young & Wild

The Strumbellas

And there's a ghost ghost ghost living in my head
And there's a hope hope hope burning in my bed
I'm young and wild
I'm young and wild
oooooh
i jumped out from an airplane
to see if i can fly
i lit a house on fire just to see a painted sky
did you know, did you know
I've been running all my life
sometimes I'll say you're crazy
sometimes I'll think you're strange
maybe you're the one that found a way out of this cage
here we go, here we go
and it goes on and on and on and on...
and there's a ghost ghost ghost living in my head
And there's a hope hope hope burning in my bed
I'm young and wild
I'm young and wild
