

# Freedom

## The Dead Daisies

Crank up my bike and I have to get away  
Because today my wife and boss are driving me insane  
Head south on 65 the throttle's open wide,  
I love the feeling, of this life in overdrive...Freedom, Feeling so alive,  
Need no destination, I just want to fly  
Freedom, when I'm on the road  
Riding on these wheels saves my soul  
Reality behind me, and there's nothing in my sight  
My blood is pumping, wide awake, I'll ride this thing all night  
The motors humming, I'm rolling cross the land  
I'll keep on moving now catch me if you can(solo)  
The motors screaming, stuck in overdrive  
I love the feeling when the road is open wide
