

Starlight & Gold (Molella Remix)

Molella & KT Tunstall

And you're free to lose your mind
You lose it all the time, Mama said
You're a fool to go for gold
It's a long and dusty road
We've got to walk until the end So we go, go
Down the long, long road
Go for gold, gold
'Cause loving you is all gold And we are starlight, we are gold
And we are starlight, we are gold
And we are starlight, we are gold
And we are starlight, we are gold
We are starlight and gold
I could lose this rainy day
I could bring the sun to bay
No one to thank, no one to beg
All alone I used to hide
When I'm with you I feel alive
My love for you I can't deny So we go, go
Down the long, long road
Go for gold, gold
'Cause loving you is all gold
('Cause loving you is all gold) We are
We are
Starlight and gold
And we are starlight, we are gold
And we are starlight, we are gold
And we are starlight, we are gold
And we are starlight, we are gold
We are starlight and gold We are starlight and gold
We are starlight and gold
