As we get up The sun goes down And the moon is the space in the cloud A golden gate The door to lalalalalalaland As we fall into the sky We'll be never afraid of the height A night of faith The door to lalalalalalalalandAs we get up The sun goes down And the moon is the space in the cloud A golden gate The door to lalalalalalalala As we fall into the sky We'll be never afraid of the height A night of faith The door to lalalalaland
