

# Grind

## Swollen Members

I still be on the grind  
When it all collapse  
And if it's my worst grind  
I'ma take it right back I still be on the grind  
When it all collapse  
And if it's my worst grind  
I'ma take it right back I still be on the grind  
When it all collapse  
And if it's my worst grind  
I'ma take it right back  
I'm on the grind  
Time to go for mine  
We still climb  
Feelin' alive  
Flowing line for line  
It go I still be on the grind  
When it all collapse  
And if it's my worst line  
I'ma take it right back I'm on the grind  
Time to go for mine  
We still climb  
Feelin' alive  
Flowing line for line  
Yo, we trail blazing  
Prevail's amazing  
Raisin' the bar  
For fame and fortune  
Is the fortunate part  
Never a guarantee  
To where we'll be  
As time pass on  
One of us passive aggressive  
The other mad calm  
Combine a hundred rhymes  
Swollen Members Black Magic  
Tour bus the pure rush  
This album is a classic  
Cuz legend has it  
The veteran of letters is drastic  
An energetic performance  
And the chorus fantastic  
Stomp on the soul

Of the misguided angel  
I reach up touch the sun  
And the rainfall  
But there's no rainbow  
People are painful  
Evil and angry, abused and afraid  
We all get confused  
By the moves that we made  
So I mend broken heart  
Make art and pray  
From the start of the day  
To the end of the evening  
Make life count  
Thank God that I'm breathing I still be on the grind  
When it all collapse  
And if it's my worst grind  
I'ma take it right back I'm on the grind  
Time to go for mine  
We still climb  
Feelin' alive  
Flowing line for line  
It go I still be on the grind  
When it all collapse  
And if it's my worst grind  
I'ma take it right back I'm on the grind  
Time to go for mine  
We still climb  
Feelin' alive  
Flowing line for line  
I still be on the grind  
When it all collapse  
And if it's my worst grind  
I'ma take it right back  
Yo, the road to glory  
Is the story of strength  
The glorious road warriors  
We travel the length  
We've seen high times, low tides  
Waves that break  
We keep eyes open  
Heads up, no mistakes  
Self disciplined  
Listenin to voices in my head  
One choice keep workin it  
It's a promise not a threat  
Go and get what we set out  
To do in the first place  
Divide and conquer  
With intensity of earthquake

Demonize day dream  
Wander alone  
Go, not normal  
I'm crazy and stoned  
Psychopath  
Don't come close to my face  
Got bad reputation  
And social disgrace  
I don't hate you  
Rap 'til my face blue  
You kill time  
I climb 'til I break through  
Quietly suffering  
Draw from the pain  
Still something out there  
That's calling my name I still be on the grind  
When it all collapse  
And if it's my worst grind  
I'ma take it right back I'm on the grind  
Time to go for mine  
We still climb  
Feelin' alive  
Flowing line for line  
It go I still be on the grind  
When it all collapse  
And if it's my worst grind  
I'ma take it right back I'm on the grind  
Time to go for mine  
We still climb  
Feelin' alive  
Flowing line for line  
I still be on the grind  
When it all collapse  
And if it's my worst grind  
I'ma take it right back I'm on the grind  
Time to go for mine  
We still climb  
Feelin' alive  
Flowing line for line  
It go I still be on the grind  
When it all collapse  
And if it's my worst grind  
I'ma take it right back I'm on the grind  
Time to go for mine  
We still climb  
Feelin' alive  
Flowing line for line
