Enchanted

Delerium

Prowling in the night Hiding 'neath my fright Manipulate my sight ThiefWhenever you steal My punishment's real You gave me sorrowInvading my own value Parading my shy security While gripping my innocence Thief Whenever you steal My punishment's real You gave me sorrow Sorrow, sorrowWhenever you steal My punishment's real You gave me sorrowWhenever you steal My punishment's real You gave me sorrow Whenever you steal My punishment's real You gave me sorrowWhenever you steal My punishment's real You gave me sorrow
