

Electric Candyman (feat. Thom Yorke)

Flying Lotus

say my name, say my name
Say my name, say my name
Say my name, say my name On the glass field, where there's cobwebs
In the building comes the colors Look into the mirror and
Look into the mirror and Say my name, say my name
Say my name, say my name
Say my name, say my name
He's adopted like a baby
He is peaceful, how I be Say my name
Say my name, say my name
Say my name, say my name Look into the mirror and
Look into the mirror and
Blue skies to the harbor Say my name, say my name
Say my name, say my name
Look into the mirror and
