## **Electric Candyman (feat. Thom Yorke)**

## **Flying Lotus**

Say my name, say my name
Say my name, say my name
Say my name, say my nameOn the glass field, where there's cobwebs
In the building comes the colorsLook into the mirror and
Look into the mirror andSay my name, say my name
Say my name, say my name
Say my name, say my name
He's adopted like a baby
He is peaceful, how I beSay my name
Say my name, say my name
Say my name, say my name
Say my nameLook into the mirror and
Look into the mirror and
Blue skies to the harborSay my name, say my name
Say my name, say my name
Look into the mirror and
