

Come Running (Atmozfears Remix) [Radio Edit]

Darren Styles

I will come running
I will come running I will come running
Running every night
You say you want me
I will make it right I will come running
All you ever need
Our love is dawning
Look outside
I'll be there tonight Our love is dawning
Look outside
I'll be there tonight
I'll be there tonight I will come running
Running every night
You say you want me
I will make it right I will come running
All you ever need
Our love is dawning
Look outside
I'll be there tonight Our love is dawning
Look outside
I'll be there tonight I'll be there tonight I will come running
I will come running
I will come running
Running every night
You say you want me
I will make it right I will come running
All you ever need
Our love is dawning
Look outside
I'll be there tonight Our love is dawning
Look outside
I'll be there tonight I'll be there tonight I will come running
Running every night
You say you want me
I will make it right I will come running
All you ever need
Our love is dawning
Look outside
I'll be there tonight
