

# Do It Again

## R5

There you are  
standing with all your friends  
So I wait  
till your alone again  
...And the minutes feel  
like eternity

...

All these wordsburied inside my heartEvery step  
feels like the hardest spark...

But the last six feet  
are gonna kill me

...

So just take this chance

...

I've got it all planned...I'll pick you up at 8  
and we can drive around

Take you to the beach  
and we can head downtownWhile  
youhold

my

hand

We're parking late out on the hood  
of my car

Listen to the air ways  
as we count the stars

Tonight

I'll

be

yourman

And tomorrow we can do it again

...

(and tomorrow we can do it again)

If i couldgive you the world tonight  
Then I wouldstill give you all my time

...

And I'd be wish  
cause love is everything  
...So just take this chance  
I've got it all planned  
I'll pick you up at 8  
and we can drive around  
Take you to the beach

and we can head downtown  
While  
you  
hold  
my  
hand  
We're parking late out on the hood  
of my car  
Listen to the air ways  
as we count the stars  
Tonight  
I'll  
be  
your  
man  
And tomorrow we can do it again

...  
Lets take this moment  
It's ours to own it  
So come with me dont let it go to waste  
No you dont wanna  
Then miss out on us  
Im telling you that girls dont fade away

...  
I'll pick you up at 8  
and we can drive around  
Take you to the beach  
and we can head downtown  
While  
you  
hold  
my  
hand  
We're parking late out on the hood  
of my car  
Listen to the air ways  
as we count the stars  
Tonight  
I'll  
be  
your  
man

And tomorrow we can do it again I'll pick you up at 8  
and we can drive around  
Take you to the beach  
and we can head downtown  
We're parking late out on the hood  
of my car  
Listen to the air ways

as we count the stars

Tonight

I'll

be

your

man

I'll

give

you

all

I

can

...

And tomorrow we can do it again
