

Interstellar (feat. Sara Skinner)

ATLiens

Our hearts were interstellar
The space between us could not hold
The force is pulling us together
But now you're magnetic
And i'm pure gold[Chorus:]Star lights bleeding through the bedroom
Your eyes don't look like they used to
I'm calling your name
Why can't you hear me
I'm screamingSo bright i can feel it burning out
My words are disappearing
I'm calling your name
Why can't you hear me
I'm screaming
Our hearts were interstellar
