

Lost In Time (feat. Coi Leray)

wifisfuneral

She just wanna hang up
Just give it a minute and she'll call back
If I don't answer, then she gettin' mad
You shouldn't be dancin', yeah
Do they fall for you?
I love all your assets
Let me be all that you promise
Or let me be all that you need
For some reason, you always on me
Then you come right back to me
Don't you know I need you?
Baby, please, baby, please, baby, please
(Don't you know I need you?)
Did I just rain on your parade?
Memories of, memories of
Memories of, memories of
You've gone way too far (I need you)
'Cause I feel I can't breathe
I need you
Did I just rain on your parade?
Memories of, memories of
Memories of, memories of
You've gone way too far (I need you)
'Cause I feel I can't breathe
Life could be unfair, but I know this shit is worth it
Shit drive me crazy when you pass me off on purpose
City to city, then fly in a different ocean
You make me feel pretty when you tell me to stay focused
Why do good girls like bad guys?
Why do we prefer to try?
Love don't cost a thing but time
Seems like time's not on our side
Here we go with this again
Time and time again
Round and round and round and round
And round and round we spin
Breathe
I need you
Did I just rain on your parade?
Memories of, memories of
Memories of, memories of
You've gone way too far
'Cause I feel I can't breathe
