

In Love

Brooke White

It's like candy land
When you hold my hand
Anywhere you stand
I wanna be next to you Give me one more taste
Of your sweet embrace
Lipstick on your face
After we kiss goodnight And you're mine, all mine
And it's fine with me
Wanna take your time
So I can make you see
With me, how happy we'll be
So fly away
Million miles away
And there we'll stay
In love
In love Just to hear the sound
Of your voice around
Paradise, I found
When you speak my name Wanna stay like this
Wrapped up in your bliss
Never gonna miss a single day
Without the chance to say I love you And as time goes on
And we both grow old
You'll always be my sun
When the world gets cold
You'll always know, you're my only one
So here I come for you
Nothing no one can do
To keep me away from you This love has no end
Never gonna save me
'til eternity is through
I'll keep on loving you
Forever and ever So let's head away
We can leave today
Let's go find a space
Our own little place
Where we can stay
Where we can stay
In love
In love So let's fly away
Million miles away
And there we'll stay

In love
In love
In love
