

Old School (feat. Snoop Dogg)

Lyfe Jennings & Snoop Dogg

I got this old school, the color of soul food
Candied Yam racing strips, pipes potato white
Cornbread interior trimmed in collard greens
Air freshner smell like chicken and pork and beans
I got this old school, the color of soul food
Candied Yam racing strips, pipes potato white
Cornbread interior trimmed in collard greens
Air freshner smell like chicken and pork and beans
I work the grave yard shift cause I'm dead on
my feet ya'll
Really want to quit but the kids got to eat ya'll
See money can't buy you power
But it can pay the water bill on time so them kids can take a shower
And I swear to GOD, if they keep on raising these gas prices
I'm a sell this Chevy and go buy me a bike
I'm a King, but my crown in a lay-way
And I'm just a day away from giving up.
I got this old school, the color of soul food
Candied Yam racing strips, pipes potato white
Cornbread interior trimmed in collard greens
Air freshner smell like chicken and pork and beans
See I got this old school, the color of soul
food
Candied Yam racing strips, pipes potato white
Cornbread interior trimmed in collard greens
Air freshner smell like chicken and pork and beans
Credit card company called said my bill is
overdue
Told them I couldn't afford to pay them and rent too
They told me they were gonna sue me
I said if you didn't want me to use it then you shouldn't have gave it to me.
And what's up with these people blowing up buildings
And nothing really gangsta about blowing up children
Would cry, but my eyes in a lay way and I just a day away from giving up.
See I got this old school, the color of soul food
Candied Yam racing strips, pipes potato white
Cornbread interior trimmed in collard greens
Air freshner smell like chicken and pork and beans
See I got this old school, the color of soul
food
Candied Yam racing strips, pipes potato white
Cornbread interior trimmed in collard greens
Air freshner smell like chicken and pork and beans
[Snoop Dogg:]
Foreign places, court cases
Seems they always on my line
I don't trip, I just dip

Pop the top on my 69
Fleetwood, Cadillac
Mirror with my Boys on back
Chandelier so superior
Louis Vitton, oatmeal interior
Bossy Boss, mink seats, what it cost
Speak yo peace, can't you see ain't no big deal
Have a seat lil homie and enjoy your meal
Close the door and don't drop crumbs on my flo'
Here we go, soul food, so cool, and I got this...I got this old school, the color of soul food
Candied Yam racing strips, pipes potato white
Cornbread interior trimmed in collard greens
Air freshner smell like chicken and pork and beansSee I got this old school, the color of soul
food
Candied Yam racing strips, pipes potato white
Cornbread interior trimmed in collard greens
Air freshner smell like chicken and pork and beansLyfe, Big Snoop, Soul Food, oh I got this
greenery cause
We need some vegetables too, gotta have you vegetables
That's what it is old school, soul food
Old school, soul food
