

The Center of Attraction (feat. Cappadonna)

Ghostface Killah & Apollo Brown

Did you feel it this time
Did you see the morning light shine
Cause the twilight seems near
But a light shines nowhere Do you feel the cold winds blow
Did you see the dawn or not
Cause the twilight seems near
But a light shines nowhere She was amazing carmela
Caramel complexion
Thank god for entering my life as a suggestion
We clicked I like minks she like iced out rings
The finer things in life together we share drinks
Vodka and cranberry my little cherry if got lock
She would fill up my commissary it was natural
I felt the bond between us she was the jelly to my peanuts
Mars to Venus the Earth to my Sun, Moon and Stars
We added up mathematically
It's like I had a bad habit b she knew my lifestyle
Took her for crime boss
She would hide my guns in the house then lie to the task force
Finish my sentence through my exact frame of mind
Through everything I had was hers that shit was mine
We were crazy in love couldn't get enough of each other
The center of attraction we were made for one another
[Cappadonna] Nah don't even fall for that corkazoid
She got the drink laced tryin to turn you to an android
She not your peanut butter more like a fucking nut case
You all goo goo eyed meanwhile the DeLucas mob watchin your place
They pullin trains on her, beat and rape, cum in the face
They got a drop on you son you a fuckin disgrace
You think god sent her nah it's the devil instead
They got plans for you tone they want you dead dead dead
So get rid of that cherry pie bye, she mad poison
Through? they about to bring the poison
Yeah don don the DeLucas mob want your head on a platter
It don't matter some of your dreams is going to shatter
They trying to get at ya
She got you caught in the rapture
Nigga wake up ya'll ain't even made for one another
She the snake Loki gonna get you sprayed brother
It's a set up seen it before doobie got wet up
[Ghostface] Nah you paranoid,
You letting your mind get the best of you

She would never set me up or lace my drink
Watch how you talkin you know I keep the heat in the mink
You dead wrong, confusion over one of your hoes
She's a ride or die chick believe me, a nigga knows
El capitan put this show strong together
Keep talkin bro I put one in your leather
Ball cap loggin through the head now that's better[Cappadonna]Ah man cmon tone you sleep
eyes man
I told you before son
Look out the window man
Lucas mob son you know who they are
Them same muthafuckas
Yo I seen em with them niggas before
She a setup chick
