

Unwanted Garden

The Green Children

Once upon a time as a blind find society
Was a (?)
(?) was shining Tired of dancing in the forest field
with the fairies singing to the strange
share laughter and dreams Imma yellow flower in a unwanted garden
Imma (?) in the sunny day when you should be smiling
Love the nature, must be far away
If you find no problems wasting someones
(?) yesterday I recall the days, and you can't (?)
Talk to me, respecting me, praying for me
now you don't if you wanted me
(?)
Why don't you take care of me
Why don't you take care of me
Take care of what you see
Cuz i am stuck in the ground
I feel (?)
In this unwanted garden
With the solace just been on it
Un-wan-ted, unwanted
Un-wan-ted, unwanted
Un-wan-ted, garden But i see this blinded in the (?)
Have you seen her, did you meant her, how did you treat her
Many moments of regret of that
With all the roads (?) been told I recall the days, and you can't (?)
Talk to me, respecting me, praying for me
now you don't if you wanted me
(?)
Why don't you take care of me
Why don't you take care of me
Take care of what you see
Cuz i am stuck in the ground
I feel (?)
In this unwanted garden
With the solace just been on it
Un-wan-ted, unwanted
Un-wan-ted, unwanted
Un-wan-ted, garden(?)
(?)
Cant seem to get all the feeling, far away
Far away

Out of here
