

# All for Love (feat. Jack & Jack)

## Madison Beer

I'm looking for places to run and hide  
I'll never forget you lord knows I've tried  
Wish I could see you without closing ym eyes  
But I know, I know  
It's so far behind  
Fading now, fading now  
Can't get right  
I'm tossing now, turning out every night  
I'm losing, losing my goddamn mind  
Ask me why I did it, ask me why I did it, I'll say All for love  
Ask me why I did it, I'll say  
All for love  
Ask me why I did it, I'll say  
I've run out of tears, I've run out of crying  
It's crazy the truth hurts way more than the lie  
Fading now, fading now  
Can't get right  
I'm tossing now, turning out every night  
I'm losing, losing my goddamn mind  
Ask me why I did it, ask me why I did it, I'll say All for love  
Ask me why I did it, I'll say  
All for love  
Ask me why I did it, I'll say All for love  
All for love  
All for love  
All for love  
All for love  
All for love  
All for love  
Ask me why I did it, I'll say (rapping...) All for love  
Ask me why I did it, I'll say  
All for love  
Ask me why I did it, I'll say All for love  
All for love  
All for love  
All for love  
All for love  
All for love All for love  
Ask me why I did it, I'll say
